

International FTAW Aftonvalley Peter  
“Whiskey”  
2004 Qualifier for the Irish Championship Imported, 2005  
Weight – 66 lbs.

Whiskey is a dynamic retriever with an exceptional, civil disposition making him a wonderful companion in the home, field or duck blind. Whiskey has earned field trial awards under both British and Irish Kennel Clubs. He qualified for the Irish Retriever Championship one day after his second birthday, quite young by Irish standards, which allowed his participation in the 2004 Irish Championship just before his export to the U.S. in January, 2005.

During his first year as a trial dog in the UK, young Whiskey’s career was very impressive. He received second place in the Open Qualifying Stake, Clodagh Valley Field Trial Association, Ireland, qualifying him for the Irish Championship and he was selected to run for the N. Irish International Gundog Team. He went on to win the Ulstare Select Field Trial in Barnbtps Park, Scotland, under the British Kennel club.

Whiskey is just as fast and stylish returning from a retrieve as he is powerful lining out for a bird. He is just as bold in thick cover as he is dynamic in water. Yet, his passion for the retrieve does not compromise his quiet, biddable disposition. Simply, he has a fantastic personality. Loyal beyond compare... friendly to all, especially children, he is always a hit at our demonstration shows and around the hunting lodges.

Whiskey has appeared in Wildrose workshops for Ducks Unlimited and the Outdoor Network in Wisconsin, Tennessee, Virginia, and North Carolina. He was unbeatable in the '05 high jump obstacle competitions in Oshkosh and Memphis demonstrating his athletic abilities in the field. He has proven to be an exceptional retriever on a variety of game including dove, quail and ducks in Mississippi to pheasants and rabbits in the Dakotas.

Whiskey's pups are bold and stylish with excellent confirmation. They love to retrieve, are easy to start, and possess exceptional scent ability. Whiskey is a versatile dog proven in competitions, demonstrations, hunting and companionship. He is truly the benchmark of a GENTLEMAN'S GUNDOG.
