

“Red”

FTAW Kathmandu Big Red of Donian Imported 2014 Weight: 77 lbs

FTAW Kathmandu, Big Red of Donian, came to us from Scotland. He is fox red of the deepest coloration making the name, “Red,” quite appropriate. Red is a British FTAW with a superb background of hunting and picking up in the U.K. He has extensive experience on hare, rabbits, pheasant, duck, partridge, and snipe. Most notable is that this dog also performed retrieving work on grouse on some of Scotland’s most prestigious hill grounds. Red’s full brother is a British FTCh and competed in the British Retriever Championship. He also represented Scotland and Great Britain in International Retriever events at the CLA Game Fair and Chatsworth Estate.

His pedigree notes that his grandfather is FTCh Flashmount Socrates. “Socks” was the sire of Drake, the Ducks Unlimited mascot, while “Bracken” on Red’s bottom pedigree line is the direct sire of our own FTCh Kane and FTAW Whiskey.

Red possesses a boldness of conformation with a stylish field performance. At 77 lbs., Red adds size and distinctive conformation to the Wildrose lines. His offspring are inheriting much of this classic labrador appearance.

Red is an aggressive retriever in cover and stylish in water. In both situations, he demonstrates outstanding scenting ability...he can locate game!

In the home, Red becomes the perfect gentleman. Quiet, patient, and compatible around people and other dogs. Hunters and adventurers alike will say, “Looks are not everything.” We agree but Red can deliver in all departments:

- Conformation
- Game finding
- Temperament

*Red & Mara Offspring
Wildrose Ginger*

*FTAW Kathmandu Big Red of Donian
further complements the Wildrose goal
to produce the finest Labradors to
complement any family’s sporting lifestyle.*
